Summary

I'm a Software Engineer, quality-oriented, value software craftsmanship, team player with good communication skills, feel responsible for projects, focus on the purpose, business, ready to adapt, not afraid to take the initiative and continuously improve.

Education

Bachelor's Degree of Computer Science and Artificial Intelligence, Cairo University 2017- May, 2021

- GPA: 2.97
- Accumulated Grade: Very Good
- Graduation project Grade: Excellent

Work Experience

Software Engineer, Insight Technology, Cairo, Egypt May 2023 – Present

- **Role:** My role includes analyzing and modifying existing software as well as designing, constructing and testing end-user applications that meet user needs — all through software programming languages. The role also focuses on the complex and large software systems that make up the core systems for an organization.
- **Projects:**
 - ❖ **Ministry of civil aviation documents management system**, it was a legacy lotus workflow system in HCL notes that controls documents in the ministry and archive its content in a legacy content management system “IBM CM”, this project was divided into 3 phases and its phases were:
 - Modernizing UI and adding new features:
 - Changed all desktop UI forms in the system.
 - Added new features.
 - Tested new features.
 - Deployed system.
 - Extraction data from “IBM CM” and Importing to “IBM FileNet” and “Open Text”:
 - Created an extraction tool
 - Created a tool for manipulating data to another types and formats.
 - Created a bulk import tool for “IBM FileNet”
 - Developing of a web application:
 - Designed and developed the front-end.
 - Developed back-end of the project.
 - Tested all of the project.
 - Deployed System.
 - Technologies used:
 - Front-End: HTML5 | CSS3 | JavaScript | JQuery | AJAX | JSON | HCL Notes
 - Back-End: Java | JSP | Servlets | LotusScript | Restful APIs
 - Servers: HCL Domino | IBM CM | IBM FileNet | Apache Tomcat

Technical Projects

- ❖ **Text Classification**, My graduation project provides a review of the text classification process, phases of that process and methods being used at each phase.
 - Source: <https://github.com/AhmedSayedMansour/Text-Classification-GP>
- ❖ **Staff Member Office hours Management**, a website aimed to connect students, TAs and Professors with each other.
 - Source: <https://github.com/ibrahimramadan1/Staff-Member-office-hours-management>
- ❖ **Burger App**, a simple website of making a burger out of some ingredients and calculate its price.
 - Source: <https://github.com/ibrahimramadan1/burger-App/>
Live Demo: <https://burger-app-e28d9.firebaseio.com/>
- ❖ **Multimedia**, 5 Java Programs to implement different compression techniques.
 - Source: <https://github.com/ibrahimramadan1/Multimedia/>

Skills

- **Hard Skills:**
Object Oriented Programming | Data structures | Algorithms | SOLID principles | Design patterns | Aspect-oriented programming | Clean Code | SDLC | Application servers | Threading | Git | Java SE | JSP | Servlets | Spring Boot | HTML | CSS | JavaScript | AJAX | JQuery | JSON | XML | ReactJS | SPA | SQL | NOSQL |
- **Soft Skills:**
Problem solving | Eager to learn | Communication | Collaboration | Independent | Listener | Work under pressure | Organization | Time management
- **Languages:**
 - **Arabic (Native)**
 - **English**
